

Carbon Reduction Plan

Supplier name: ... A. Menarini Farmaceutica Internazionale SRL - UK

Publication date:04/12/2023.....

Commitment to achieving Net Zero

A. Menarini Farmaceutica Internazionale SRL - UK is committed to achieving Net Zero emissions by 2050.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2022	
Additional Details relating to the Baseline Emissions calculations.	
<i>A. Menarini Farmaceutica Internazionale SRL - UK have not previously reported their GHG Emissions. 2022 is the first year of reporting and therefore establishes a new baseline.</i> <i>The baseline includes Scope 1, Scope 2, and the subset of Scope 3 as described in the central UK Government's PPN 06/21.</i>	
Baseline year emissions:	
EMISSIONS	TOTAL (tCO₂e)
Scope 1	47.20
Scope 2	21.97
Scope 3 (Included Sources)	1275.97
Total Emissions	1345.15

Current Emissions Reporting

Reporting Year: 2022	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	47.20
Scope 2	21.97
Scope 3 (Included Sources)	1275.97
Total Emissions	1345.15

Emissions reduction targets

A. Menarini Farmaceutica Internazionale SRL - UK has no previous emissions reduction commitment, with this being the first year of GHG emissions reporting.

In order to progress to achieving Net Zero, we have adopted the following carbon reduction targets.

It is predicted the carbon emissions will grow by 15% to the end of 2024 due to planned growth of the business. However, following this increase, we commit that net carbon emissions will decrease to **0 tCO₂e** by **2050**. This is a reduction of **100%**. We will update our performance against this target every year and publish the results on our website

Carbon Reduction Projects

As this is the first year of reporting, there are not yet any new carbon reduction initiatives relating to this CRP.

The company has committed to annual reporting of its GHG emissions and reductions. Annual reporting will be compared against the CRP targets to determine performance, and to highlight further areas of improvement in data collection and operations.

The wider Menarini Group (multinational) has engaged in calculating the carbon footprint at Group level, including the UK division. The objective is to highlight areas of improvement

across the group to streamline their operations as best as possible and improve carbon efficiency across the organisation.

In the future we hope to implement further measures such as:

Transitioning all company car and car allowance drivers to electric vehicles

Working with our distribution partners to reduce downstream CO2 emissions in our supply chain

Minimising international travel through increased use of electronic meetings

Off-setting any remaining carbon emissions

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the Supplier:
